• First Republic Bank - Zelle — January-2022 - August-2022

Project Description: First Republic Bank (FRB) is a banking which provides accounts, money transfer, shares, deposits, loans and many more. Money transfer can be done in many ways , we followed one through Zelle, we have developed the package called Zelle For Business (Z4B) which is used to transfer money. In this Z4B there are recipients and transactions. User can add, edit, delete any recipient who are associated with his/her account. User can perform money transfer by using Send Money option and also can request money from other recipient using Request Money option. Also it contains profile page to show the accounts information and User can able to edit them.
Responsibilities: Design and developing the app, bug fixing, code reviewing, demoing etc.
Technologies: Swift, UIKit, SwiftUI
Industry: Banking and Finance
