As a experienced iOS developer with 5 years of hands-on experience, I bring a strong skill set and a passion for coding to any project. Starting my journey at the age of 14, I have continuously honed my skills through self-study and practical application. My expertise in mobile app development is coupled with a creative touch, as evidenced by my ability to design and develop engaging Instagram filters. I am confident in my ability to bring both technical proficiency and creative vision to any team.

INDUSTRIES: Healthcare, Education

TECHNICAL SKILLS

• Swift	5 years
• Xcode	5 years
• Sketch	4 years
• Meta Spark Studio	3 years
• ARkit	3 years
• Adobe Photoshop	3 years

PROJECT DETAILS

• Affirma February-2023 - March-2023

Project Description: Designed and developed a native iOS app aimed at promoting positivity and well-being Enables users to receive daily affirmations to boost their mood and confidence Includes a feature that allows users to send affirmations to their friends, promoting a supportive and uplifting community.
Responsibilities: Single-handedly created the entire application from start to finish, Ensured a seamless user experience by designing intuitive and user-friendly interfaces, Integrated Supabase's APIs and SDKs into the app for seamless communication with the backend.
Technologies: Swift, Xcode, Sketch, Supabase
Industry: Healthcare
