• ObjectiveC	7 years
• Java	7 years
• Android	2 years

SOFT SKILLS

Communication, Teamwork, Time management, Critical thinking, Problem-solving

PROJECT DETAILS

• Lifestyle India — September-2020 - May-2023

Project Description: The Lifestyle by Landmark Group app is a lifestyle shopping app that offers a wide range of fashion and beauty products to users. The app allows users to browse through various categories of products, including clothing, footwear, beauty, home decor, and more. Users can add products to their cart and complete the purchase directly through the app. One of the unique features of the app is the "Shukran" loyalty program, which rewards users for their purchases with points that can be redeemed for discounts on future purchases. The app also includes a feature called "Scan & Shop," which allows users to scan a product's barcode in-store and purchase it directly through the app. Overall, the Lifestyle by Landmark Group app is designed to provide users with a seamless shopping experience, offering a variety of products and convenient features that make shopping easier and more enjoyable.
Responsibilities: Developing and maintaining iOS applications, collaborating with cross-functional teams, and ensuring code quality and adherence to best practices.
Technologies: iOS Development, Xcode, Swift
Industry: Ecommerce

• Max Fashion September-2020 - May-2023

Project Description: Max Fashion app by Landmark Group is a fashion shopping app that offers a wide range of products for men, women, and kids. The app allows users to browse through various categories of products, including clothing, footwear, accessories, and more. Users can add products to their cart and complete the purchase directly through the app. One of the unique features of the app is the "My Max" loyalty program, which rewards users for their purchases with points that can be redeemed for discounts on future purchases. The app also offers exclusive deals and discounts for users who are part of the program. In addition to shopping, the Max Fashion app offers various features that enhance the user experience, such as easy navigation, personalized recommendations, and a wishlist feature. The app also offers a convenient store locator feature that allows users to find the nearest Max store. Overall, Max Fashion app by Landmark Group is designed to provide users with a seamless and convenient shopping experience, offering a variety of products and features that make shopping easier and more enjoyable.
Responsibilities: Developing and maintaining iOS applications, collaborating with cross-functional teams, and ensuring code quality and adherence to best practices.
Technologies: iOS Development, Xcode, Swift
Industry: Ecommerce
