I have 10 years of experience working as a software engineer. Some products of mine serve millions of users like TokyoCatch, DoNotPay, Coinhako, and Moca. I love coding and teaching. If you don't find me at work, possibly I'm teaching at Codementor. I have 5 years working remotely in the US timezone, and flexible to work in any time zones.

INDUSTRIES: Software and Platforms

TECHNICAL SKILLS

• Swift	7 years
• Node.js	4 years
• Typescript	3 years
• React Native	3 years
• ObjectiveC	2 years

SOFT SKILLS

Communication, Critical thinking, Leadership, Mentoring

PROJECT DETAILS

• Worx360 February-2022 - October-2022

Project Description: Enabled seamless employer and talent recruitment processes by implementing key features such as internal chat utilizing socket.io, integrating a secure payment system with Stripe, and implementing an efficient check-in system. Effectively led and supervised a team of 3 developers, conducting thorough code reviews, organizing regular one-on-one meetings, and providing mentorship to enhance the team's skills and capabilities. Regularly collaborated with the product owner and project manager to stay updated on project progress, discuss requirements, and ensure alignment with product objectives.
Responsibilities: Lead the team of 3 members while work with the PO.
Technologies: Nest.js, Prisma, socket.io, Swift
Industry: Software and Platforms
