I am a highly skilled iOS developer with 5 years of experience creating mobile applications for a variety of clients and industries. I have a deep understanding of Swift and Objective-C programming languages, and have expertise in developing robust, high-performance apps that provide seamless user experiences. Throughout my career, I have been involved in the entire app development lifecycle, from design to deployment. I have worked with cross-functional teams to develop and deliver projects, collaborating with designers, product managers, and QA engineers to ensure high-quality products. My technical skills include proficiency in various iOS development tools and frameworks, including Xcode, Cocoa Touch, and Core Data. I have a strong understanding of RESTful APIs and database design, which allows me to build apps that integrate seamlessly with backend services. In addition to my technical skills, I possess excellent communication and problem-solving abilities, which enable me to work collaboratively with clients and team members. I am committed to staying up-to-date with the latest industry trends and best practices, and am always looking for new and innovative ways to enhance my development skills.

INDUSTRIES: Social Network, Software and Platforms

TECHNICAL SKILLS

• Swift	5 years
• ObjectiveC	5 years
• Cocoa framework	5 years
