I am an iOS developer with a strong background in the financial sector and experience working on large-scale projects. I possess deep knowledge of Swift and Objective-C, specializing in the development and maintenance of high-quality applications. My skills include applying agile methodologies to ensure efficiency and quality in projects. Additionally, I have advanced skills in version control using Git, enabling effective source code management and team collaboration. I have expertise in implementing accessibility features in iOS applications, providing an inclusive user experience. Moreover, I have strong skills in communicating with REST APIs, enabling seamless integration of iOS applications with external services. Furthermore, I have specific experience in developing solutions for the financial industry, understanding the needs and requirements of financial institutions. I am accustomed to working on massive projects, tackling complex challenges, and ensuring successful software delivery. I excel in multidisciplinary team environments and constantly seek innovation and technical excellence. My iOS skills include Swift + Objective-C, Architectures (MVVM, MVC, VIPER, Clean Architecture), Firebase, SwiftUI + UIKit, Swift Package Manager + Cocoapods, Modularization, Unit Tests + UI Tests + Snapshot Tests. In addition to my iOS skills, I have knowledge in Unity, C#, Html + CSS, Kotlin, Java Spring and Android.

INDUSTRIES: Sales, Banking and Finance

TECHNICAL SKILLS

• iOS	8 years
• ObjectiveC	8 years
• Cocoa Touch	8 years
• Rest API	8 years
• Git	8 years
• Swift	8 years
• Cocoa Pods	8 years
• Cocoa Touch framework	8 years
• Restful API	8 years
• UIkit	8 years
• Xcode	8 years
• iOS SDK	8 years
• AutoLayout	8 years
• Design Patterns	6 years
• Agile	6 years
• CI	4 years
• ARkit	4 years
• CICD	4 years
• XCTest	4 years
• Human Interface Guidelines	4 years
• Push notifications	3 years
• Firebase	3 years
• Core Data	3 years
• SwiftUI	2 years
• Core Animation	2 years

• CloudKit 2 years

SOFT SKILLS

excellent interpersonal relationship, Communication, Teamwork, Problem-solving, Critical thinking

PROJECT DETAILS

• mhob CRM & Sales July-2023 - March-2018

Project Description: iPad application used by business salespeople to manage their sales and their customers

Responsibilities: • Created a mobile version specifically tailored for iPad of the Bohm-owned ERP Analisys. • Developed essential features, including the CRM section, empowering salespeople to access their sales funnel and customer information. • Engineered the Sales section, enabling sales representatives to retrieve inventory data and place new orders directly within the application.

Technologies: iOS

Industry: Sales

EMPLOYMENT HISTORY

• iOS Developer Senior

Description: • Prioritizing code modularization and implementing innovative design patterns to enhance application development. • Excelling in communication between the Flutter framework and native development, seamlessly integrating features in our applications. • Building scalable and robust architectures to address scalability challenges in high-user applications. • Demonstrating expertise in handling large-scale banking applications with a focus on delivering a seamless user experience. • Adapting to evolving client requirements and effectively managing project complexities. • Leveraging strong problem-solving skills to overcome technical challenges and ensure the delivery of high-quality solutions.

• iOS Engineer Senior March-2018 - December-2019

BRQ

Description: • Acquired advanced knowledge in Jenkins, Software Development, REST API, CocoaPods, and Xcode. • Spearheaded a large-scale project for Itaú Bank, serving millions of users. • Demonstrated strong leadership and project management skills throughout the project. • Applied MVVM principles to ensure efficient and scalable solutions. • Enhanced expertise in Unit Testing and Design Patterns. • Collaborated effectively with cross-functional teams to deliver high-quality results.

• iOS Developer Pleno July-2016 - March-2018

Bohm

Description: • Utilizing technologies such as REST API, CocoaPods, and Xcode to create tailored solutions for iPad devices with Swift And Objective-C. • Successfully delivering customized software solutions for iPads and Apple Watch. • Managing end-to-end development processes, from conceptualization to deployment including publication on the Apple Store.

• iOS Developer JR July-2014 - July-2016

RubyThree

Description: • Developing skills in API REST, CocoaPods, and Xcode while actively contributing to innovative software solutions. • Collaborating with a talented team to enhance communication and foster effective teamwork. • Exhibiting adaptability and flexibility in a dynamic work environment.

EDUCATION

• Bachelors degree in Game development from Fiap 2014 - 2016

LANGUAGES

• English - advanced
