+91 9820045154 | hr@talrn.com

iOS Developer with 6 years of professional experience in dynamic and deadline-driven work environments. Proven ability to work independently or as a part of a team. Proven track record of designing and developing high-quality iOS applications that meet the needs of clients and exceed user expectations. Proficient in languages like Swift and Objective-C, to write clean, efficient, and maintainable code. Leverage iOS development frameworks such as UIKit, Core Data, Core Animation, and Core Location to create robust and feature-rich apps. Have a deep understanding of architectural patterns like MVC (Model-View-Controller), MVVM (Model-View-ViewModel), VIPER (View-Interactor-Presenter-Entity-Router), and RIB.

INDUSTRIES: SaaS, Health and Fitness

TECHNICAL SKILLS

• iOS Development	6 years & 6 months
• Xcode	6 years & 6 months
• UIkit	6 years & 6 months
• JSON	6 years & 6 months
• Git	6 years & 6 months
• Restful API	6 years & 6 months
• Swift	5 years
• Cocoa Touch	5 years & 6 months
• AutoLayout	4 years & 6 months
• Firebase	4 years & 6 months
• MVVM	4 years & 5 months
• iOS concurrency	4 years
• GCD	4 years
• Agile	4 years & 5 months
• MVC	3 years
• Cocoa Pods	3 years
• ObjectiveC	3 years & 6 months
• github	3 years & 5 months
• Gitlab	3 years & 1 months
• Alamofire	2 years & 6 months
• RIB	1 years & 4 months
• XCTest	1 years & 6 months
• RxSwift	1 years & 5 months
• TDD	1 years & 6 months
• Unit Testing	1 years & 2 months
• Combine Framework	1 years
• VIPER	1 years & 5 months
• SwiftUI	6 months
• In app purchases	6 months

SOFT SKILLS

Problem-solving, Communication, Teamwork, Time management

PROJECT DETAILS

• Grab

Project Description: Grab offers various ride-hailing options, including 4-wheel and 2-wheel rides, and taxi booking. Grab also offers a diverse range of services including food order delivery from restaurants, prompt package delivery, and groceries from supermarkets, making it a leading taxi app and delivery platform.
Responsibilities: • Worked closely with the Product, UX/UI, and Backend teams to design, build and extend consumer and/or partner-facing new products, platforms, and features. • Collaborated with QA on continuous integration and delivery (CI/CD) as well as other automated and manual testing to make sure our app releases are always worthy of five-star ratings. • Raised the bar by reviewing each other's code, sharing knowledge, tips, and tricks, and generally helping out - within and across teams. • Worked on building reusable iOS software components for the Grab platform.
Technologies: Swift, RIB Architecture
Industry: SaaS

• Possible

Project Description: Possible is a health and wellness app that provides weight loss and lifestyle disease management programs with the help of personal dieticians, customized diet plans, and tasty, ready to eat superfoods! The app provides you with food,water,weight and exercise log options. All this makes you keep track of your daily activities and help reach your weight loss goals.
Responsibilities: • Improved product quality through code reviews, writing effective unit tests, and collaborating with QA. • Modularized the core features of the app in order to increase reusability • Worked with the Engineering Manager to provide estimates and status updates. • Worked closely with product managers and designers to define a rich iOS experience for the user.
Technologies: Swift, Objective C, MVC, MVVM
Industry: Health and Fitness
