- Calvary Temple Foundation

Project Description: The Calvary Temple Foundation app serves as a dedicated platform for a non-profit organization. Its purpose is to facilitate user activity monitoring, donation management, and engagement. The application encompasses a range of key features, including login, signup, password recovery, settings customization, profile management, sponsorship programs, membership models, QR code scanning, push notifications, and in-app notifications. Users can access and interact with various types of content such as videos, audio files, and text messages from the Owner's desk. Additionally, the app supports guest user roles, offers a comprehensive services list, and enables users to apply for specific services. Through these functionalities, the Calvary Temple Foundation app aims to enhance user experiences while fostering a sense of community and support for the organization's noble cause.

Responsibilities: I worked on this project as lead for a mobile app developer. I created the entire architecture, and functional document and managed the development as well. I was responsible for the weekly demo to the client.

Technologies: Swift, UIKit

Industry: Nonprofit

EMPLOYMENT HISTORY

- iOS Developer

Description: Completed multiple iOS app development projects for clients, adhering to project requirements and delivering high-quality solutions within specified timelines. Collaborated closely with clients to understand their vision, gather requirements, and provide technical expertise throughout the development lifecycle. Developed custom iOS applications from concept to deployment, leveraging Swift and Objective-C programming languages and following best practices in app architecture and design patterns. Implemented robust and user-friendly features, including UI/UX design, API integrations, database management, and third-party library integrations. Conducted thorough testing and debugging to ensure optimal app performance and functionality across different iOS devices. Collaborated with cross-functional teams, including designers, backend developers, and project managers, to coordinate project activities and ensure seamless integration. And many more...

- iOS lead

May-2015 - September-2016

Ratufa software technologies pvt. ltd.

Description: Led a team of iOS developers and provided technical guidance and mentorship throughout the app development lifecycle. Collaborated with product managers and stakeholders to define project requirements, scope, and timelines. Actively participated in code reviews, providing feedback and suggestions to enhance code quality, maintainability, and performance. Stayed up-to-date with the latest trends and advancements in iOS app development, incorporating new technologies and frameworks into projects when appropriate. Demonstrated effective time management skills, prioritizing tasks and balancing multiple projects simultaneously. Managed project budgets and timelines, ensuring deliverables were met within allocated resources. Acted as a consultant, providing guidance and support to clients regarding app strategies, app store submission guidelines, and app maintenance.

- iOS Developer

April-2014 - May-2015

Syscraft Information System Pvt. Ltd.

Description: Collaborated with a senior tech lead on various iOS application projects, gaining valuable experience and exposure to different types of applications. Developed iOS applications using technologies such as UI Kit, StoryBoard, Auto Layout, and Swift Language. Worked closely with the tech lead to understand project requirements, define app functionalities, and implement them effectively. Contributed to the design and implementation of user interfaces, ensuring a visually appealing.

- iOS Trainee

December-2013 - March-2014

Universal Informatics

Description: Received comprehensive training and guidance from experienced professionals in the field of iOS development. Acquired knowledge of fundamental concepts, principles, and best practices in iOS app development. Developed a solid understanding of programming languages, including Objective-C and Swift. Gained exposure to different aspects of iOS development, including UI design, app functionality, and debugging. Received valuable support and mentorship from the team, enhancing technical skills and professional growth. Successfully completed assigned tasks and projects within the internship duration. Actively engaged in team meetings and knowledge-sharing sessions, contributing insights and ideas to improve project outcomes.

EDUCATION

- Bachelors degree in Computer Science from RGPV

2009 - 2013

LANGUAGES

- English - advanced
