I am a Project Leader at R Systems, a leading provider of IT solutions and services. With over 10 years of experience in iOS development, I have acquired and applied expertise in SwiftUI, Objective-C, Swift, BLE, Serial Communication, OTT, Encryption/Decryption, and HLS, among other technologies and frameworks. My mission is to create innovative and impactful solutions that meet the needs and expectations of clients in the medical and security domains. I have successfully led and managed multiple projects for Biomedix, Verimatrix, and InsideSecure, delivering high-quality and user-friendly applications that leverage the latest trends and best practices. I also enjoy collaborating with my team and clients, and empowering them to achieve their goals and vision.

INDUSTRIES: OTT, Social Network, Media and Communication, Social media, Healthcare
