• SwiftUI	2 years & 1 months
• ObjectiveC	2 years & 2 months

SOFT SKILLS

Communication, Teamwork, Problem-solving, Time management

PROJECT DETAILS

• GivCounts July-2019 - March-2020

Project Description: GivCounts is an online donation platformand mobileapplication for users and NGOs. It is aimed at setting a platform for users and NGOs to create a common place where you can easily communicate with other NGOs and support them. It lets users browse through the application for different NGOs and support their causes. You can check the profile of the listed NGOs and the various charity groups in the app. The application lets you make a donation to the NGOs of your choice. The user also has the option of adding NGOs with the required details. The user can add NGOs to the wish listsection in order to follow the events and keep up with the current news of the community. The application allows the end-user to communicate with NGOs and volunteer for their causes.
Responsibilities: Designed quality assurance testing for junior developer output, maintaining adherence to business goals and boosting productivity. Instructed junior developers on use of Swift programming language, creating collaborative learning environment to onboard personnel. Evangelized for end-user experience improvements to enhance overall adoption
Technologies: Swift
Industry: Social recognition
