Experienced Associate Software Developer with a track record of successfully delivering complex iOS projects on time and exceeding expectations. With nearly a year of industry experience, I am well-versed in software engineering principles and passionate about creating cutting-edge mobile applications. I excel as a collaborative team player with strong problem-solving abilities and excellent communication skills. My commitment to meticulous attention to detail ensures the delivery of high-quality work. I stay continuously updated with industry trends, making me a valuable asset in any challenging software development role where I can leverage my expertise to make a significant impact.

INDUSTRIES: Consumer Goods and Services

TECHNICAL SKILLS

• iOS Development	1 years
• Swift	1 years
• UIkit	1 years
• MVC MVVM	1 years
• Core Animation	1 years
• Restful API	1 years
• Cocoa Pods	1 years
• Cocoa Touch	1 years

PROJECT DETAILS

• Industrial Hardware e-Commerce Platform — April-2023 - June-2023

Project Description: Our endeavor for the manufacturing industry introduces an innovation that lets clients experience our array of industrial hardware products in stunning augmented reality. As the virtual meets reality, workers also harness its power to seamlessly manage their workforce, ushering in a new era of productivity.

Responsibilities: • Contributed to the development of an innovative mobile application for an industrial hardware store. • Utilized Core Animations to create visually engaging and intuitive user interfaces. • Incorporated SceneKit and Physics World to integrate lifelike 3D elements and realistic physics simulations. • Implemented Core Data for ecient data storage and retrieval, ensuring seamless access to product information. • Enabled data synchronization and oine access capabilities to enhance user experience. • Collaborated closely with the team to ensure seamless integration with existing backend systems. • Utilized version control systems for streamlined code management and collaboration.

Technologies: Swift, UIKit, SceneKit, Core Animations, Core Data, RESTful APIs

Industry: Consumer Goods and Services

• Process Management Application December-2022 - August-2023

Project Description: Empowering workers with a touch of innovation, our cutting-edge solution lets them effortlessly log work progress and time by simply scanning their equipment. Meanwhile, supervisors gain a real-time bird's-eye view into their team's endeavors, ensuring a symphony of productivity on the factory floor.

Responsibilities: Developed a cutting-edge mobile application for a smart manufacturing solution, leveraging Swift, Objective-C, UIKit, and Cocoa Touch. • Integrated third-party libraries with Cocoapods to enhance functionality and eciency. • Implemented RESTful APIs with JSON for real-time data retrieval, enabling instant access to critical manufacturing information. • Utilized Firebase for Push notications, facilitating seamless communication and timely alerts for important updates. • Conducted rigorous unit testing and followed the MVVM architectural pattern for a robust and scalable application. • Managed version control with git to ensure ecient collaboration and code management within the development team.

Technologies: Swift, UIKit, Objective-C, Cocoa Touch, CocoaPods, RESTful APIs, MVVM

Industry: Consumer Goods and Services

• SOS Emergency Calling App August-2023 - August-2023

Project Description: Our visionary project equips patients with a life-saving lifeline. With a single touch, the HealthGuard Connect app swiftly summons emergency assistance, bridging the gap between patients in need and the caring hands of healthcare providers

Responsibilities: • Integrated Twilio SDK for real-time emergency calls with one-tap functionality and implemented clean MVVM architecture. • Designed intuitive user interface using UIKit to ensure user-friendly experience. • Utilized RESTful APIs to securely transmit critical data during emergency calls. • Managed project dependencies eectively with Cocoa Pods to streamline development process. • Integrated Firebase Analytics for valuable user insights and performance metrics.

Technologies: Swift, UIKit, RESTful APIs, Twilio

Industry: Consumer Goods and Services

EMPLOYMENT HISTORY

• Associate Software Developer

Description: Proficient in Swift, UIKit, CocoaTouch, and RESTful APIs. Experience in MVVM architecture and Firebase integration. Developed robust iOS applications, ensuring user engagement and real-time functionality. Implemented difficult scenarios using SceneKit, ARKit and PhysicsWorld for feature implementation. Worked on personal projects utilizing open source APIs like HealthKit. Demonstrated adaptability and willingness to learn through personal projects. Strong technical skills and proficiency in iOS development.

EDUCATION

• Bachelors degree in Computer Science from Guru Gobind Singh Indraprastha University 2017 - 2021

LANGUAGES

• English - native
