I have around 10+ years of experience in Software development.I have worked extensively on iOS mobile development. Worked as a developer and Lead for multiple projects on Location-based,Augmented Reality,Product Catalog and Navigation based apps. Having worked on all phases of development from requirements gathering, building a mobile app from ground-up to problem solving and support can independently take a task to completion. I would be definitely able to handle all the requirements for the profile in an efficient manner.

INDUSTRIES: Banking and Finance, Travel, Services,

TECHNICAL SKILLS

- iOS — 10 years

SOFT SKILLS

Communication, Teamwork, problem solving
