+91 9820045154 | hr@talrn.com

An enthusiastic and skilled Mobile Engineer with 12+ years of experience developing iOS applications from scratch. With fluent Swift, SwiftUI and Objective-C skills and exposure to Xamarin-based projects, he has also contributed extensively to troubleshooting Android products and back-end-related issues using Java, PHP, and .NET. Saad has experience designing back-end and mobile architecture for multiple industries and clients. Has expertise in ARKit/RealityKit, OpenGL ES/Metal based applications. For over 4 years, he has participated in Continuous Integration and DevOps processes while maintaining existing products, leading teams, mentoring developers, and helping them polish their skills. In addition, he feels comfortable working remotely and participating in code reviews in Agile environments.

INDUSTRIES: Artificial Intelligence, Healthcare, Health and Fitness, Banking and Finance, Shopping, Business, Social Network
