Skilled in Swift, Java, XCTest, CI/CD with Firebase. Experience in Server-Driven UI. Notable projects: Furlenco, EFF."

INDUSTRIES: Aerospace and Defense, ECommerce

TECHNICAL SKILLS

• Swift	4 years & 5 months
• Xcode	4 years & 5 months
• iOS Development	4 years & 5 months
• SwiftUI	2 years
• Server driven Ui	2 years

SOFT SKILLS

Teamwork, Problem solving

PROJECT DETAILS

• EFF February-2020 - September-2022

Project Description: The EFF app optimizes aviation operations by seamlessly integrating flight planning, avionics data, and real-time weather information, offering users comprehensive insights and real-time updates for an enhanced aviation experience.
Responsibilities: Analyzing project requirements, translating them into comprehensive software designs, and executing the development. Code optimization, Memory management and Bug fixes. Development of robust Unit and UI tests for iOS app. Achievements: Successful EFF app Enterprise Distribution to App Store.
Technologies: Swift UIKIT
Industry: Aerospace and Defense

• Furlenco September-2022 - January-2024

Project Description: The Furlenco app is an e-commercel online store for furniture. You can either rent or buy new and fixed-up furniture. They have a special collection that can totally change how your home looks, making it match your own style. It's super easy to use and makes furnishing your place a breeze!
Responsibilities: iOS app development from scratch using Swift UI. Implementing Server-Driven UI architecture for development.Incorporating RealM, Keychain, and UserDefaults based on the nature and sensitivity of the data being stored. Successfully integrated a native deep-link handler into the navigation layer. Incorporated advanced analytical tools such as Moengage, Firebase, and AppsFlyer to empowers data-driven decision- making. Implemented dynamic configurations through Remote Config for real-time adjustments, and utilized Crashlytics for proactive crash monitoring and analysis. Reducing CPU utilization by incorporating image caching into the code. Managed app distribution to both TestFlight and the App Store. Addressing bugs in the iOS app thorough unit testing using the XCTest framework.
Technologies: Swift Swiftui
Industry: ECommerce
