An iOS Developer with approximately 6 years of experience. Proficient in Swift and a wide range of development tools, I've successfully implemented key features and optimized processes in multiple projects. I excel in enhancing user experiences through data-driven decisions, reducing development time, and ensuring high app store acceptance rates. My strong skills in coding, development methodologies, and leadership make me a valuable asset to any team.

INDUSTRIES: Banking, Fitness

TECHNICAL SKILLS

• Swift	6 years
• Git	6 years
• UIkit	6 years
• Cocoa Pods	6 years
• Swift Package Manager	4 years

PROJECT DETAILS

• Omnicard — May-2021 - September-2021

Project Description: OmniCard for Business Expenses: Corporate Cards and Spend Management OmniCard is India's 1st Omnichannel spending platform, created to make payments simple, secure, and seamless. OmniCard brings you UPI Payments, Cards, and Cash together without a bank account. OmniCard is licensed by the Reserve Bank of India. Designed with you, the hardworking employee, in mind, OmniCard is an easy-to-use app that helps you organize and manage your corporate expenses better. OmniCard is the ultimate tool for effortless employee expense management. No more hassle or delays when it comes to tracking and submitting your expenses. With OmniCard, you can easily record your expenses on the go, whether it's a business trip, a client meeting, or lunch with colleagues. Say goodbye to stacks of bills and time-consuming paperwork.
Responsibilities: Rebuilding the complete application in VIPER architecture.
Technologies: Swift
Industry: Banking

• Lets Burn — February-2019 - December-2020

Project Description: Burn gives you access to the best fitness studios around you, with one membership. Explore, discover and book for the fitness classes you've always wanted to try, at the time, you've always wanted to have. Whether it's yoga, boxing, spinning, crossfit, functional training, you can find it, and more. Not only will you enjoy the workout, you will also become a part of a vibrant community that's fun, helpful and full of energy. Experienced trainers in their field will help you take the necessary steps towards a healthy lifestyle- in and outside of the studio. You will translate the "surge", "switch", "click" of your reservation, into the motivation you need to lead an active life.
Responsibilities: End-to-end support for any new features introduced. Complete implementation of online classes.
Technologies: Swift
Industry: Fitness
