Here I am working as Senior iOS developer and my roles & responsibility includes to provide the solution of complex problem/ module, development of the user stories, giving technical inputs as required in tech discussion with client, groom juniors etc.

INDUSTRIES: Healthcare, Ecommerce

TECHNICAL SKILLS

• Swift	6 years & 11 months
• iOS	6 years & 11 months
• iOS SDK	6 years & 11 months
• Swift Package Manager	5 years & 1 months
• SwiftUI	1 years & 1 months

PROJECT DETAILS

• Broadcom eHealth August-2019 - June-2022

Project Description: Its a covid -19 application for the USA employees. Main purpose of this application was to collect the data of the employee if they are facing any covind 19 issue. For that we were purposing a daily survey to employee and if its successed then employee will be allowed to come to office otherwise health advisory will be generated. On success of daily survey a workpass was generated for the day only through that pass employee can do entry or exist. We also integrated a proximity in that application so that we can detect the device from a certain distance and can avoid the physical interaction.
Responsibilities: Here I am working as Senior iOS developer and my roles & responsibility includes to provide the solution of complex problem/ module, development of the user stories, giving technical inputs as required in tech discussion with client, groom juniors etc.
Technologies: swift
Industry: Healthcare

• Caseys June-2022 - April-2023

Project Description: Its a ecommerce food ordering application in USA region only as of now. this application provides multiple option for payments like debit, credit, apple pay. User can also add vouchers coupons while doing the payment. User has facility to order
