Sign in with apple, Cocoa touch, UIKit, Cocoa Pods, Core-Animation, Graphics, Socket.io, Callkit, Speech Transform, Audio/Video Call

PROJECT DETAILS

• Writi Care January-2019 - March-2021

Project Description: Writi is cloud-based medication-management software supported on mobile devices and web browser-based platforms. The system supports the communication, record, and workflow of patient-related orders and documentation to flow seamlessly into the patient's health record, to be securely accessed by local and remote healthcare partners. Writi's Virtual Healthcare platform facilitates secure communication and documentation of patient care, and is integrated with leading cloud-based EHR platforms that serve the majority of North America's skilled-nursing facilities. Benefits of our Virtual Healthcare platform include: • Improved remote access to specialized care • Direct computerized order entry (reducing transcription errors, improved medication safety) • Reduce transfers to hospital • Assess symptoms, severity and treatment options • Monitor progress and check in on patients in isolation • Communicate with care team and patients • Compliant with order processing requirements after virtual visits (both for clinical, logistic, and billing documentation)
Responsibilities: Techincally Manage ios team, unserstand requirement and implement
Technologies: Swift
Industry: Healthcare

• Aurum Live June-2022 - January-2023

Project Description: Aurum.LIV is one of the Real Estate Platforms in India which provides all multiple services at a one-stop platform, and it helps the user to carry out their property search effectively by saving their time and money. Aurum aims to be the only property app a user will need for all home purchases. A user can easily adjust the search to find properties that match his criteria and it includes a map integration to show nearby properties based on the user's location. It also helps with an easy option to schedule site visits as per user's availability and for sellers, a listing of property is just a matter of a few minutes.

Responsibilities: Scrum Master & Flutter Developer, Manage The all team and give updates to clinet after complete the sprint.

Technologies: Flutter

Industry: Real Estate
